FLEURCO
Glass surface protection

SAFETY PROTECTION

WHAT IS FLEURCOSEKUR⁺ SAFETY PROTECTION?

FLEURCOSEKUR⁺ SAFETY PROTECTION is a transparent film bonded directly onto the glass panel by means of an adhesive to improve safety by retaining the pieces together in the event of glass breakage.

WHAT ARE THE BENEFITS OF FLEURCOSEKUR⁺ SAFETY PROTECTION?

FLEURCOSEKUR⁺ SAFETY PROTECTION film provides an added layer of security for you and your family. In the event of an accident, FLEURCOSEKUR⁺ SAFETY PROTECTION prevents the tempered glass door from shattering into thousands of pieces which could cause damage.

HOW IS FLEURCOSEKUR⁺ SAFETY PROTECTION APPLIED?

Application is performed by a specialized machine.

The film is always installed on the exterior side of the panels as to not affect the Microtek® coating on the interior.

HOW DURABLE IS FLEURCOSEKUR⁺ SAFETY PROTECTION?

FLEURCOSEKUR⁺ SAFETY PROTECTION is very durable. It has been tested for long-term usage against chemicals and normal wear and meets the required standards.

HOW DO I CLEAN GLASS TREATED WITH FLEURCOSEKUR⁺ SAFETY PROTECTION?

No abrasive materials should be used in cleaning a FLEURCOSEKUR⁺ SAFETY PROTECTION treated shower door. Cleaning with a damp cloth using a mixture of vinegar/mild soap with water is recommended.

FLEURCO
Glass surface protection

SAFETY PROTECTION

WHAT IS FLEURCOSEKUR⁺ SAFETY PROTECTION?

FLEURCOSEKUR⁺ SAFETY PROTECTION is a transparent film bonded directly onto the glass panel by means of an adhesive to improve safety by retaining the pieces together in the event of glass breakage.

WHAT ARE THE BENEFITS OF FLEURCOSEKUR⁺ SAFETY PROTECTION?

FLEURCOSEKUR⁺ SAFETY PROTECTION film provides an added layer of security for you and your family. In the event of an accident, FLEURCOSEKUR⁺ SAFETY PROTECTION prevents the tempered glass door from shattering into thousands of pieces which could cause damage.

HOW IS FLEURCOSEKUR⁺ SAFETY PROTECTION APPLIED?

Application is performed by a specialized machine.

The film is always installed on the exterior side of the panels as to not affect the Microtek® coating on the interior.

HOW DURABLE IS FLEURCOSEKUR⁺ SAFETY PROTECTION?

FLEURCOSEKUR⁺ SAFETY PROTECTION is very durable. It has been tested for long-term usage against chemicals and normal wear and meets the required standards.

HOW DO I CLEAN GLASS TREATED WITH FLEURCOSEKUR⁺ SAFETY PROTECTION?

No abrasive materials should be used in cleaning a FLEURCOSEKUR⁺ SAFETY PROTECTION treated shower door. Cleaning with a damp cloth using a mixture of vinegar/mild soap with water is recommended.

5
year limited
warranty
