## SAFETY PROTECTION

### WHAT IS FLEURCOSEKUR+ SAFETY PROTECTION?

FLEURCOSEKUR+ SAFETY PROTECTION is a transparent film bonded directly onto the glass panel by means of an adhesive to improve safety by retaining the pieces together in the event of glass breakage.

### WHAT ARE THE BENEFITS OF FLEURCOSEKUR+ SAFETY PROTECTION?

FLEURCOSEKUR+ SAFETY PROTECTION film provides an added layer of security for you and your family. In the event of an accident, FLEURCOSEKUR+ SAFETY PROTECTION prevents the tempered glass door from shattering into thousands of pieces which could cause damage.

### HOW IS FLEURCOSEKUR+ SAFETY PROTECTION APPLIED?

Application is performed by a specialized machine.

The film is always installed on the exterior side of the panels as to not affect the Microtek® coating on the interior.

### HOW DURABLE IS FLEURCOSEKUR+ SAFETY PROTECTION?

FLEURCOSEKUR+ SAFETY PROTECTION is very durable. It has been tested for long-term usage against chemicals and normal wear and meets the required standards.

### HOW DO I CLEAN GLASS TREATED WITH FLEURCOSEKUR+ SAFETY PROTECTION?

No abrasive materials should be used in cleaning a FLEURCOSEKUR+ SAFETY PROTECTION treated shower door. Cleaning with a damp cloth using a mixture of vinegar/mild soap with water is recommended.

**5**
