FROM THE EDITORS

At Fleurco, we are dedicated to redefining ordinary bathrooms into havens of modern elegance and functional luxury. We are in tune with the changing preferences of homeowners, designers, and architects who are always searching for the next standout trend in bathroom design. That's why we're thrilled to show you how our latest arrivals will take your bathroom experience to new heights, while reflecting the pulse of contemporary bathroom trends. If you're planning a luxurious bathroom revamp or initiating a fresh, upscale concept, and can't decide between ultra-modern chic and vintage elegance style, let our new products guide you and most importantly inspire you! They not only cater to a wide range of design preferences but also ensure you're perfectly aligned with what's next in bathroom décor!

- The Fleurco Team

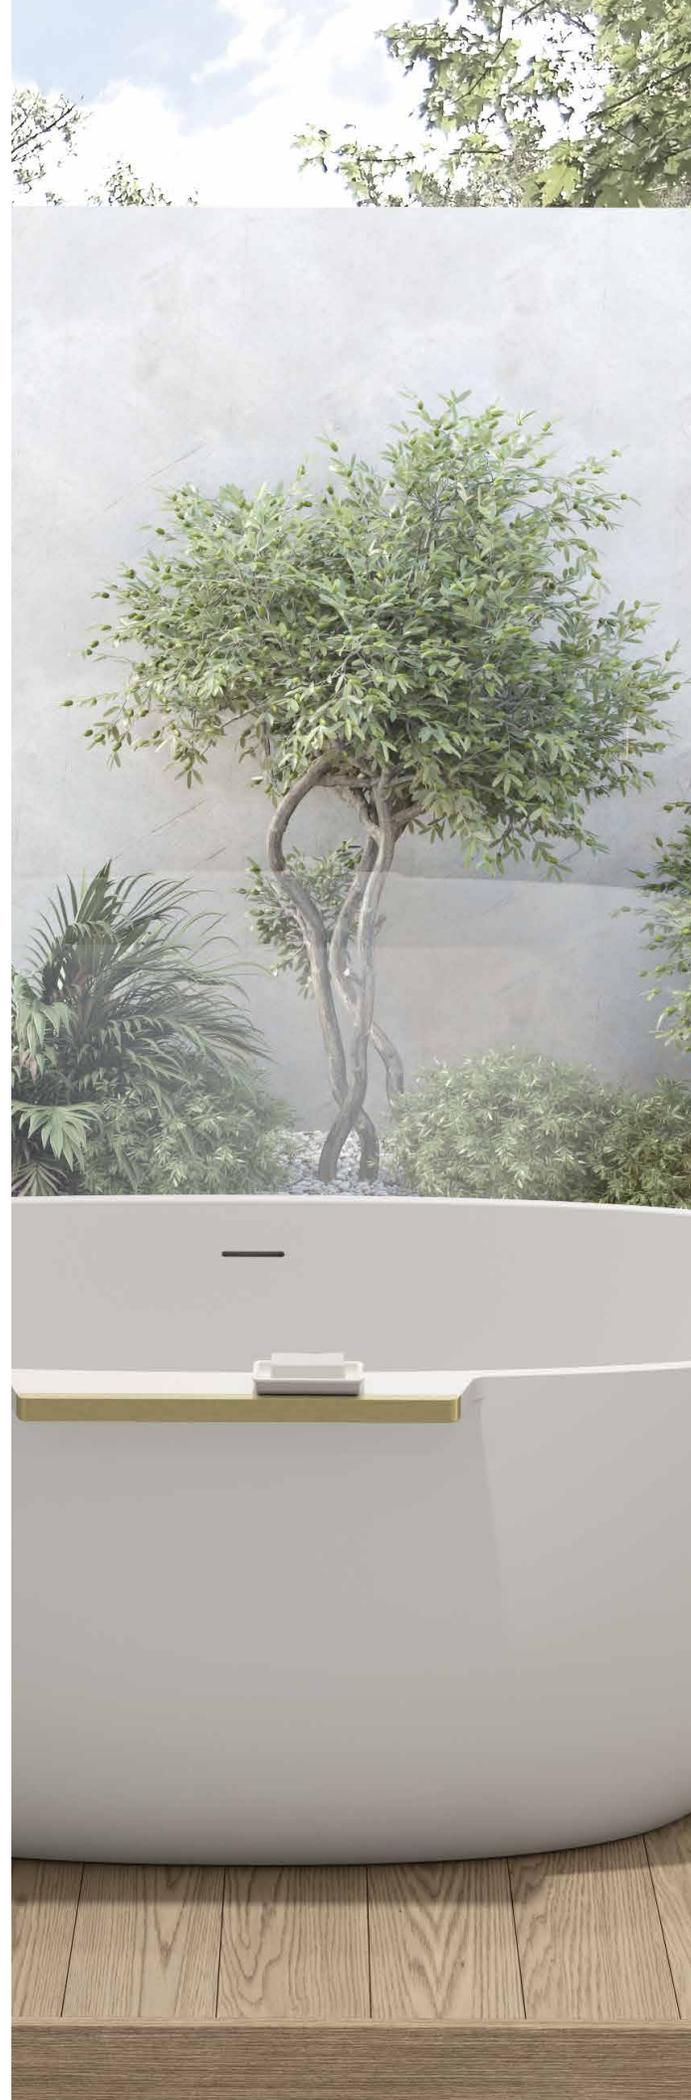

STAY AHEAD IN **BATHROOM TRENDS** WITH FLEURCO'S **NEWEST ARRIVALS!**

Bring NATURE Into Your Bathroom Décor

The allure of nature's tranquility and beauty has never been stronger in bathroom design. Homeowners and designers alike are increasingly drawn to elements that evoke the serenity of nature. Fleurco has responded to this demand with the ARIA STONE collection; a line of solid surface bathtubs that not only embrace the nature-inspired bathroom trend but also raise the bar for what luxury and longevity should look like. Designed to replicate the graceful allure of natural stone, Aria Stone bathtubs come in an array of nature-inspired hues that harmonize effortlessly with any décor, evoking the calming nature vibes you're aiming to achieve in your bathroom. Some models, like Calla & Lys, have a glossy interior and a matte exterior, creating a stunning contrast that adds elegance and sophistication to your bathroom.

Other models, like Lucia & Lukas, have an integrated shelf giving you extra space for your relaxation essentials, be it a book, candles, or soaps.

While the Aria Stone collection exudes the aesthetics of nature, their solid surface material guarantees that your bathtub remains as stunning as the day it was installed.

The Rise of ROUNDED Bathrooms

Drawing inspiration from the call of nature and our ever-growing need for intimate, tranquil sanctuaries, bathroom designs in 2024 are taking a notably softer approach by shifting from sharp angles to embracing the elegance of round shapes and curves. These rounded elements, whether in mirrors or bathtubs, evoke a calming, spa-like ambiance while also offering an illusion of expanded space, especially in smaller bathrooms. The blend of round designs with contemporary finishes strikes a balance between timeless and trendy, subtly connecting the space to natural elements. For those redesigning their bathrooms, integrating curved features can provide not just a chic look but also a serene, warm, inviting environment. As highlighted in the Marmite 2024 Trendbook¹, the prominence of round shapes aligns seamlessly with the 'intimate heaven' design style, emphasizing spaces rich in comfort, safety, and harmony. To create this style in your shower experience, explore Fleurco's Select Monaco round top shower shield, and the NEW Gia bathtub from the Aria Stone collection, both designed with delicate soft lines to convey comfort & convenience.

Further embracing this trend, Fleurco's new models of round and oblong LED mirrors not only enhance visual charm but also prioritize functionality with their advanced LED lighting.

Brushed GOLD: Shimmering Luxury

Brushed gold is making a resounding comeback in 2024. This finish, known for its muted luster and warmth, transforms bathrooms into serene, luxury retreats. Recognizing its unwavering appeal, Fleurco has expanded its shower door range to feature this exquisite finish. Collections like Gemini, Gemini Plus, Horizon, Skyline, Select K2, Select Lexus Walk-in Panel (Canada) / Station Plus (US) are now ready to wrap your bathroom space in a warm, luxurious glow. For more ideas & inspiration about how to indulge your bathroom in luxury, explore the brushed gold trend in modern bathroom design.

As we navigate the horizons of 2024, bathroom design is continually evolving, harmonizing modernity with timeless elegance. From nature-inspired aesthetics, the gentle embrace of curves to the radiant touch of brushed gold, Fleurco's newest arrivals are more than just products; they are experiences, each telling a story of luxury, comfort, and unparalleled quality. Ready to turn your bathroom into a sanctuary of style and serenity? Dive into the world of Fleurco, and let your bathroom echo the most sophisticated trends of 2024!

WHAT IS THE **BEST** SHOWER DOOR **CONFIGURATION** FOR YOU?

When planning a new bathroom project or a shower remodel, have you ever found yourself lost in the various shower door choices? Does the thought of matching design aesthetics with functional space make you second-guess your decision? And if you are an interior designer, how many times have you wished for a clear guide to help your clients understand why a Pivot door isn't ideal for their tiny guest bathroom?

We've all been there! Deciding if a walk-in shower will work in a compact space, or if a corner shower design will complement your sleek bathroom tiles, requires attention to the smallest details. The task of choosing the right shower door seems straightforward until you start considering all the details represented by the different configurations & styles of shower doors on the market! That's why we're offering you a comprehensive guide to navigate you through the choices of Sliding, Bypass, Pivot, Walk-in, and Corner glass shower doors. We'll show you how each configuration fits various bathroom layouts, the design mood it best evokes, and its alignment with different lifestyles and life stages. With our advice, you'll find the answers to transform your bathroom project from a source of stress to a destination for relaxation and style!

Sliding & Bypass Shower Doors

Bypass shower doors feature a pair of sliding panels that glide past one another, allowing entry from either side of the enclosure without requiring the clearance of traditional swinging doors. Their dual-side entry feature gives more flexibility if you decide to switch up the layout of your bathroom. Sliding shower doors differ slightly, offering a single sliding panel to access the shower. Both doors are a practical choice for smaller bathrooms where every inch counts. Homeowners with pre-installed bathtubs often favor these tub doors for their compatibility with standard tub openings, typically measuring 60 inches in width. They are also a popular choice for family bathrooms where their practicality shines and contributes to a more expansive feel and aesthetic elegance. These glass shower doors evoke a modern, minimalist, and efficient function. For installation, it's vital to ensure that the tracks are level and secure, which might be a project for professionals to guarantee longevity. This type of shower door is generally more budget-friendly and suits a practical lifestyle where ease and functionality are paramount.

Pivot

Pivot doors consist of a single outward swinging door, with or without a fixed panel. They swing open like a traditional door, requiring space but offering a timeless appeal. They are ideal for medium to larger bathrooms and offer a smart solution for narrower shower entrances where sliding panels might not be feasible. They command a strong design presence, making a bold statement in both contemporary and traditional décor. Installation requires precision, a minor misalignment can cause issues, that's why professional installation is recommended. The pivot shower door is a mid-range investment, perfect for those who appreciate a blend of classic style and function in their daily routines.

Walk-In Shower Doors

Walk-in showers offer an open entry to the shower space for an airy feel. They represent European style & minimalist luxury and can be incorporated into any sized bathroom, although stands out more in spacious designs. These doors are for those who desire an open concept bathroom environment, often inspiring a spa-like mood. They are universally accessible, making them an excellent option for all life stages, including seniors or those with mobility concerns. They are also easy to install since they don't require measuring for door clearance. Walk-in showers represent a higher-end budget choice and suit a luxury-oriented lifestyle that values clean lines and open spaces rather than a quick in-and-out daily necessity.

Corner Shower Doors

Corner showers are designed to maximize space in compact bathrooms without compromising on style. They are particularly fitting for individuals or couples in urban living situations where space matters. With options like the neo-angle door that cuts across the corner, or the square or round enclosures that fit snugly into corners, these doors create an illusion of more space while offering a dedicated shower area. The design can be customized to reflect the homeowner's personal style. Sleek frameless glass doors give a contemporary and spacious feel, while framed doors with decorative glass can evoke a more classic or cozy ambiance. The budget for corner showers can vary, allowing flexibility for different financial considerations and lifestyles.

Shower or tub enclosures?

Fleurco offers a variety of shower doors to accommodate most enclosures. Choosing between a shower or a tub enclosure can largely depend on the users' lifestyle and bathroom size. A shower enclosure is ideal for those with an active lifestyle who value speed and efficiency. It's also a space saver in smaller bathrooms. Tub enclosures, on the other hand, are the cornerstone of family-oriented bathrooms, offering the dual benefits of practicality for bathtime with kids and a private escape for a tranquil soak after a long day.

Framed or Frameless?

Deciding on framed versus frameless shower doors involves balancing aesthetic desires and functional needs. Framed doors offer a traditional look and are typically more budget friendly. They also provide a robust structure and can support heavier glass. Frameless doors, however, are sleek and modern, offering an unobstructed view that can make a bathroom appear larger. The absence of frames simplifies cleaning, although they require a more complex installation process.

The selection of a shower door is a powerful touch that defines a bathroom's character and functionality.

You must consider the bathroom size and layout, the desired aesthetic, and who will be using the bathroom most. For families and high-traffic bathrooms, durability and space efficiency are key. For a more luxurious, spa-like ambiance, the elegance of a walk-in or frameless design may be the right choice. Additionally, never underestimate the importance of professional installation. It ensures your selected door operates smoothly and looks as flawless as intended, offering peace of mind and adding value to the home. Remember, the right shower door not only complements the design but enhances the entire shower experience! Choose from our endless shower door possibilities and live the Fleurco experience, where every shower door opens to a world of sophistication and relaxation!

VESPERO

Our latest shower door masterpiece, to experience luxury like never before!

With its fixed shower panel & ultra-modern European design, your bathroom will become a realm of pure elegance and sophistication. A hidden anchoring system along with a choice between a matte black or brushed gold frame will give you the seamless finish that screams perfection. Not to mention that the new smoked grey glass will add a layer of mystery while maintaining the chic style of your bathroom.

Vespero includes FleurcoSEKUR+ Safety Protection for extra peace of mind to enjoy a 100% relaxing & refreshing shower experience!

VIZO LED COSMETIC MIRRORS

BRIGHTEN YOUR MORNING ROUTINE

With a dual gradient touch switch, allowing to shift from cold to warm light, these LED mirrors are perfect for makeup application. With a contemporary design, they will fit seamlessly on any bathroom counter, or mounted to any bathroom wall.

The wall-mounted option comes with a double-foldable arm so you can see yourself at the best angle. Offered in round or square shapes, these mirrors offer a 5X magnification range. All models are available in chrome or matte black.

luna

BATHROOM STORAGE GLOW UP

When you need extra storage space, Fleurco's LED medicine cabinets are the perfect solution. Energy-efficient LED bright white light is suitable for makeup application & shaving.

With a sandblasted aluminum body, these LED medicine cabinets suit any bathroom décor. And the copper-free mirrors prevent corrosion.

With interior & exterior mirrors, you're sure to always find the best reflection looking back at you. All models include soft-close Blum® hinges.

Models are equipped with 2 tamper resistant & GFCI outlets. They have USB/USB-C ports (excluding Halo Tall View), and come with 8mm ultra-clear adjustable glass shelves. You can also find the metal ON/OFF touch switch with dimmer on the inside of every model.

Whether you mount it or recess it to the wall, a Fleurco LED Medicine Cabinet is what you need to illuminate your day.

FLEX
SERIES

FIBO BY FLEURCO WALL SYSTEMS

Tiled walls are beautiful but high maintenance. Residue buildup occurs after every shower and if not scrubbed frequently, can become quite unhygienic. Fibo by Fleurco Wall Systems not only provide the luxurious look of natural wall coverings, but are extremely easy to maintain.

The unique, patented Aqualock click system ensures the wall will be 100% waterproof (Fibo sealant required). Just follow the installation steps, and you're guaranteed a wall that will look great and last for years to come.

MAKE YOUR BATHROOM UNIQUE

With over 10 combinations, Luna STAK vanities are the perfect addition to any modern bathroom.

The modular mix & match design allows you to fully customize your vanity.

Choose between a wall-mounted frame or a freestanding frame, or no frame at all!

This solid surface collection is offered in a smooth matte white finish, with frames available in matte black or brushed gold.

TAVIA

SOLID
SURFACE
BASES

These low profile solid surface bases offer a simplistic design. The decorative drain cover is perfectly integrated through colour and shape.

Offered in 3 matte finishes (white, stone grey and cocoa) and 2 textures (smooth and slate), this new base has a model to complement any shower enclosure.

Each base includes a tiling flange kit, making installation easy for any shower configuration.

SAY HELLO TO THE SAFEST SHOWER DOORS IN THE INDUSTRY

FleurcoSEKUR+ Safety Protection (S.R.T.) is a transparent film bonded directly onto the glass panel by means of an adhesive. It improves safety by retaining the pieces together in the event of glass breakage.

The film provides an added layer of security for you and your family. In the event of an accident, FleurcoSEKUR+ Safety Protection (S.R.T.) prevents the tempered glass door from shattering into thousands of pieces which could cause damage.

Application is performed by a specialized machine. The film is always installed on the exterior side of the panels as to not affect Fleurco's Microtek® coating on the interior.

FleurcoSEKUR+ Safety Protection (S.R.T.) is very durable and has been tested for long-term usage against chemicals and abrasives, and meets the required standards.

No abrasive materials should be used in cleaning a FleurcoSEKUR+ Safety Protection (S.R.T.) treated shower door. Cleaning with a damp cloth using a mixture of vinegar/mild soap with water is recommended.

FleurcoSEKUR+ Safety Protection (S.R.T.) now includes: Gemini Plus, Gemini, Mercury, Novara Plus, Latitude, Horizon, Skyline, Apollo, Elera, Vectra and newly added Select K2, Select KT, Cordoba Plus, Cordoba & new Vespero model.
