SHOWER DOOR WITH VALVE ACCESS OPENING / DOUCHE AVEC OUVERTURE D'ACCÈS À LA VALVE

**Please keep this manual and product code number for future reference
and for ordering replacement parts if necessary.**

**Veuillez conserver ce manuel et le code de produit pour des références futures,
et au besoin, la commande de pièces de rechange.**

GENERAL INSTRUCTIONS

- Read this manual carefully and completely before proceeding.
- It is recommended that you wear safety glasses at all times during the installation.

En

INSTALLATION OVER CERAMIC TILES

- If your shower door is to be installed over ceramic tiles, the tiles should lay completely under the wall jamb.
- Silicone should be used to seal the gap where the ceramic tiles meet the fixed panel.

NOTICE

- Caulking: no sealant is required inside the shower, unless otherwise stated.
- Some models are equipped with clear sealing gaskets.

CARE FOR YOUR SHOWER DOOR

- Never use scouring powder pads or sharp instruments on metal pieces or glass panels. An occasional wiping down with a mild soap diluted in water is all that is needed to keep the panels and aluminum parts looking new.
- We recommend wiping the glass panels with a squeegee after each use.

INSTRUCTIONS GÉNÉRALES

- *Lire attentivement et complètement le manuel d'installation avant de procéder.*
- *Il est recommandé de porter des lunettes de sécurité en tout temps lors de l'installation.*

INSTALLATION SUR LES TUILES EN CÉRAMIQUE

- *Si votre porte de douche doit être installée sur une bordure en céramique, le jambage doit reposer complètement sur cette dernière.*
- *Le calfeutrage doit être appliqué sur le côté extérieur de la douche où le panneau fixe rencontre la bordure en céramique.*

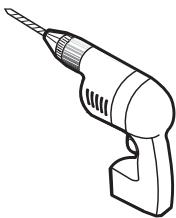

NOTE

- *Calfeutrage: aucun scellant n'est nécessaire à l'intérieur de la douche.*
- *Certains modèles sont dotés de joints d'étanchéité clairs.*

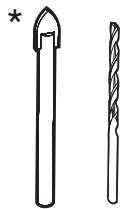

L'ENTRETIEN DE VOTRE DOUCHE

- *Ne jamais utiliser de poudre ou de tampon à récurer, ni d'instrument tranchant sur les parties en métal ou en verre. De temps à autre, il suffit de nettoyer la porte avec une solution d'eau et un détergent doux pour conserver l'aspect neuf des panneaux de verre et du cadre en aluminium.*
- *Nous recommandons de passer une raclette de douche sur les panneaux de verre après chaque utilisation.*
